Homeless status were not calculated for the 51 clients who were served in both community agencies and regional centers. Only State Hospital data used. AIMS (State Hospital Data) and Magellan (Emergency Inpatient Data and Inpatient Data) are separate databases. To date, we do not have the capacity to report unduplicated count between the two systems. From a consumer flow through the system, an individual would stop in the Emergency Inpatient unit before moving to the State Hospital.
